CAREER PROFILE

Finance and Management Information Systems graduate with a strong foundation in financial analysis, data-driven decision making, and business technology. Experienced in Excel, data analytics, and financial modeling to develop practical solutions that improve efficiency and support informed business decisions. Recognized for integrity, analytical thinking, and a strong work ethic with a results-oriented approach to creating organizational value.

EDUCATION

BAYLOR UNIVERSITY – Waco, Texas

May 2026

Bachelor of Business Administration

- Majors: Finance & Management Information Systems
 - GPA 3.82; Finance GPA 3.9
 - Cum Laude, Dean's Academic Honor List: Fall 2023 – Spring 2026
-

EXPERIENCE

Texas Security Bank – Dallas, Texas

June 2025 – July 2025

FP&A Intern

- Designed and implemented an automated departmental scorecard system using Microsoft Forms, Power Automate, and Excel, forming the foundation for a bank-wide performance tracking framework
- Built a dynamic dashboard analyzing 570+ bank branches across 22 institutions, delivering insights presented to executive leadership and board of directors
- Automated payroll reconciliation using Excel Power Query, reducing processing time by ~75% and improving efficiency
- Performed daily bank reconciliations, including internal accounts, vault/ATM balances, and Federal Reserve account activity, ensuring financial accuracy and control

2020 Companies – Southlake, Texas

June 2023 – August 2023

Sales and marketing agency providing outsourced labor solutions

Junior Data Analyst

- Developed and presented an analysis identifying market trends and growth opportunities for a major client (Dell), supporting strategic decision making
- Cleaned and structured large product datasets in Excel, improving data accuracy and usability for analysis
- Applied advanced Excel functions and Power Query techniques to transform and analyze data, increasing efficiency of analytical workflows

Chick-Fil-A – Frisco, TX

October 2021 – April 2022

Data Analyst Intern

- Supported the development of an Excel-based inventory tracking system across two business locations, enhancing oversight of operational assets and supply levels
 - Built an Excel model to estimate revenue losses from a food waste incident, supporting management's evaluation of financial impact
 - Developed foundational Excel skills, including data organization, formulas, and basic financial analysis
-
